FIVE CENTS

Kuhn Loeb and Lehman Brothers Control Uranium In United States

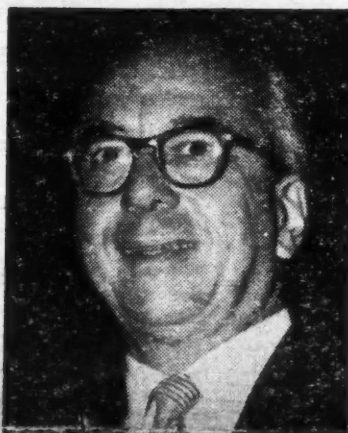

By Sam Crockett

Under cover of the smoke screen of battle which arose between the two power factions involved in the titanic conflict waged last year over Lewis (Lichtenstein) Strauss' nomination to the post of Secretary of Commerce, a secret of great import to this nation slipped out into print. It dealt with the control of uranium.

Lewis Strauss, as is well known now, was associated with Kuhn, Loeb and Company from 1919 to 1947, the last 18 years as a full partner. He married Alice Hanauer, the only child of Jerome Hanauer (✕), who had been with Kuhn, Loeb and Company since 1891 and a partner of Jacob H. Schiff (✕) since 1912. Among the multiplicity of private activities of Lewis Strauss (who un-Jewishly pronounces his name 'Straws') are his trusteeship in the cited Communist-front Institute of Pacific Relations; membership on the executive committee of the American Jewish Committee, and on the board of directors of the Jewish Theological Seminary; treasurership of the Jewish Theological (Talmudic) Seminary of America; presidency of the sinister Institute for Advanced Study at Princeton, N.J. operating center for the Soviet espionage agent Albert Einstein and his successor, Julius Oppenheimer, named communist who also was accused of being a Soviet agent by the executive director of the Joint Committee on Atomic Energy, William Borden (A); co-chairman of the National Conference of Christians and Jews; financial advisership to the Rockefeller family (Anna Rosenberg also advises the same family); membership on the Atomic Energy Commission (AEC) from 1946-50 and chairmanship of the same agency from 1953-58 (B).

Lewis Strauss is evidently a very powerful Jew indeed, therefore why was he ignominiously ousted from public service during the recent fight mentioned above; and why was Senator Clinton P. Anderson of New Mexico, Chairman of the Joint Committee on Atomic Energy, the leader in the fight to force Strauss out of the Government? One very potent reason—and very valid one—lies buried in the Congressional Record of May 28, 1959 on pages 8433-34. Senator Anderson, during a speech he made on the selection by acting Secretary of Commerce Strauss of Armand G. Erpf to head the Department of Commerce study of national transportation policy did a very courageous thing; he not only attacked Kuhn Loeb and Company, but also revealed a hidden aspect of Kuhn Loeb's operations which pointed the finger unerringly towards an act of super-treason beyond belief. What that act was will be dealt with shortly.

First, however, we should identify Mr. Armand Grover Erpf, the investment banker whose selection by Strauss provided Anderson with an excuse to take on the murderously powerful international banking firm of Kuhn Loeb. Erpf (C) was an official of Carl M. Loeb, Rhoades and Company from 1933-36 and a general partner of the firm from 1936 to date. The partners of this firm and their customers own more than 20

Lewis (Lichtenstein) Strauss

million in shares in the biggest railroads (D); Erpf himself having holdings of \$321,000 in Seaboard Airline Railroad Company (the total assets of which in 1956 were only \$355,853 (E)). No wonder Anderson felt there was a conflict-of-interest between Erpf's association with his firm and his duties to study the transportation needs of the nation. But what has Erpf to do with Kuhn Loeb, whose interest Strauss serves?

The answer lies in the interlocking relationship of all the top Jewish firms on Wall Street, which includes arranged marriages between the controlling families. Adele Lewisohn married Arthur Lehman (brother of Herbert Lehman) and had two daughters by him: Helen, who married Benjamin J. Buttenwieser, limited partner in Kuhn Loeb and intimate friend to Alger Hiss before and after his conviction for perjury; and Frances, who married John L. Loeb, son of Carl M. Loeb, founder and senior partner of Carl M. Loeb, Rhoades and Company. (F) Anyone who is at all acquainted with the meaning of marital ties among the Jewish banking families—witness the incestuously related Rothschilds—will understand the Lehman Brothers-Kuhn Loeb-Carl M. Loeb relationship here indicated for what it is. Strauss had other motives, however, than just favoritism when he selected Erpf to conduct a transportation study for the Department of Commerce. What were they? Here is what Senator

SPECIAL - NEXT ISSUE

The Anti-Defamation League (Jewish Gestapo) arranged to have an article circulated in newsmen stating that the Un-American Activities Committee condemned us. Watch for our next issue exposing this LIE.

T.V. TRAP EXPOSED

By The Editor

On November 24th, Mr. Bill Peters of Columbia Broadcasting System in New York, was in our office for an hour. He said CBS was preparing a two hour program on TV Channel 2, Sunday between 7 and 11 P.M. to be put on in March. He said this would be an opportunity to tell our story to 25 to 40 million people. They wanted to bring 7 men with equipment and film to interview me in each room of our headquarters.

Peters, who apparently is not a Jew, makes a good appearance. He said they were going to interview several who represent nationalist opinion and put on one large program. He named two he had interviewed on film. They would screen the interview and he admitted that only 5 minutes of the 3 hour interview with me would be used.

When I told Peters, CBS was not interested in helping COMMON SENSE, but wanted to end us, he assured us that CBS wanted to give such as us an opportunity to broadcast our ideas and we would not be interrupted or interfered with. Peters called seven times from New York during the following three weeks. I suggested they put Ben Freedman and myself on a live TV program, in a debate, with four of the A.D.L.'s best men. Peters said someone may be libeled and CBS sued. I then arranged for Peters to meet Ben Freedman in New York; they talked an hour in the Commodore Hotel.

Mr. Freedman proposed that CBS give a letter agreeing that I was to OK the script before it was shown, and failing, was to be paid \$250,000. This was turned down by Will Weston who was to have charge of the program. Peters arranged an appointment for Mr. Freedman with Irving Gitlin, head of Public Relations for CBS for Tuesday, December 22nd. The talk lasted three hours with Will Weston and Peters present. When Mr. Freedman asked Weston if he was a Jew he said "No, he was an atheist." Under pressure from Mr. Freedman, Weston then admitted he was a Jew.

Freedman and Weston had bitter exchanges; Mr. Freedman called him a stinker and told him it was evident he intended to sandwich me in between bombed synagogues and schools, and that it appeared to be a trap in which the Anti-Defamation League and CBS were cooperating. They seemed extremely anxious to film our offices from inside and discredit us on the air.

F. Allen Mann, editor of CHRISTIAN PATRIOT'S CRUSADE, Hinsdale, Illinois, had a similar experience. Peters called on him after several phone calls from New York, then came to Chicago with Will Weston and four technicians, registering at the Palmer House. They arrived in Hinsdale to film an interview with Mr. Mann; how-

Are Zionists taking control of American Legion?

OPEN LETTER

CAMPBELLTON FARM

Barboursville, Virginia

December 9, 1959

Hon. Martin B. McKneally
National Commander, The American Legion
Indianapolis 6, Indiana

Dear Sir:

In the December number of the **American Legion Magazine** I observe that a portrait of Rabbi Robert Kahn is given top position, along with a portrait of you, above the National Vice Commanders and others who constitute the National Executive Committee of the American Legion.

I also observe that the feature article of the December number of the **American Legion Magazine** is a Christmas message from "the well known columnist" George Sokolsky.

Since the population of this country is overwhelmingly Christian, as far as numbers are concerned, and since the membership of the American Legion doubtless has a similar proportion of those who believe in Christianity and its type of civilization, I cannot understand why a Rabbi was named National Chaplain. If Jews insisted on having the needs of their cult looked after by a "chaplain," it seems to me that the Legion might have chosen two chaplains — one of them a Christian.

With regard to the Christmas message, it struck me as strange that no suitable message could be had from some person, clerical or lay, among the more than 150,000,000 people in this country who adhere to Christianity or Christian civilization. It is of course the privilege of the American Legion to do what it pleases. If it wishes its spiritual needs looked after by a Rabbi, and its Christmas message sounded off by Mr. Sokolsky, that is the Legion's right and privilege. Under such circumstances, however, I don't see how any self-respecting Christian American can be satisfied with things as they now are in the American Legion.

If I were younger, I should wish to join any other Christians in the Legion who might hope to see a Christian viewpoint given at least some representation in such matters as chaplaincies and Christmas messages. In view of my age, however, there is nothing I can do as a Christian, except resign from an organization which accepts guidance in spiritual matters from the one force in the world which has the longest and most consistent record of denying the basic facts on which Christianity was founded.

I hereby submit my resignation as a member of the American Legion. I hope you will find it possible to print this letter in full and unchanged, in an early number of **The American Legion Magazine**.

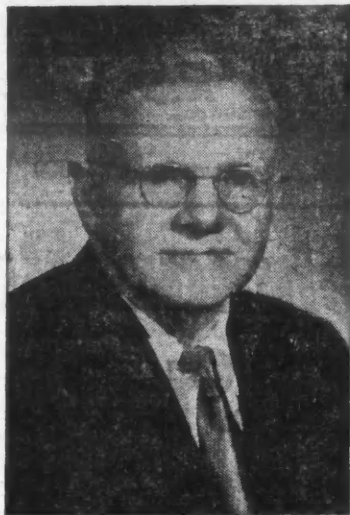

Respectfully,

John Beaty

UNDENIABLE EVIDENCE

In connection with the above we give you interesting quotes from **THE AMERICAN JEWISH COMMITTEE'S BUDGET FOR 1953**. This is a 281 page secret report made only to the Jewish officers of this organization which reveals clever brainwashing of Christians.

Exerpts from page 122: "Having responsible leaders speak for or endorse causes of concern to the American Jewish Committee and condemn those groups or individuals who engage in activities which the American Jewish Committee considers inimical to the best interests of the community, state and nation.

Col. John Beaty

"We frequently supply speeches or speech material to officials of the Legion and Veterans of Foreign Wars. Content covers civil rights and civil liberties; public school issues; the current rise of Nazism in Germany; the danger of attempts to divide our population on the basis of race, creed or color; the need of stronger community service activities; the importance of UN efforts to strengthen human rights.

"We have met with fairly good success in the use of this material by leaders. Practically all of the addresses delivered by the National Chaplain of the Legion during 1950-1 were supplied by us, for which he expressed appreciation. Many of our speeches were used in national broadcasts by the Commander-in-Chief of the Veterans of Foreign Wars, and those not thus used were printed and circulated to departments and posts of the VFW in clip-sheet form. . . . "Knowing of our interest in liberalization of the immigration laws, we were informed, by a prominent Legionnaire, of a move to have the 1951 convention endorse the **McCarran Act in toto**. Thereupon, the Chairman of the Executive Committee of the American Jewish Committee and the Director of this Division met with the persons involved and agreed on plans which ultimately prevented endorsement.

"... We supplied much of the material and photographs for the **AMERICAN LEGION MAGAZINE** article, "Israel and the Soviet Union," wherein the American Jewish Committee was quoted as the source of several statements. A recent Legion article suggested by us showed how unsuccessful the Communists have been in their attempts to recruit Jews, Negroes and other minority group to their cause.

Page 124: "It is interesting to note the replies reported by **Elmo Roper** to the question of where people prefer to turn for political advice during the current political campaign. First choice on the list was **THE AMERICAN LEGION**. If polls may be relied on, this points to the desirability of more active participation in post activities on the part of those AJC members who are veterans.

"We know from experience that many posts are looking for sound leadership; indeed, the lack of it accounts for projects which are looked upon with disfavor by the community at large. Our members might well serve as a liberalizing influence in veterans' undertakings, and would at least help to block reactionary proposals.

"It is strongly recommended that the Veterans Division be authorized to work diplomatically to this end.

"It is also recommended that we organize a National Veterans Advisory Committee,

composed of Jewish leaders located in various parts of the country who would not only give guidance and advice to the Veterans Division, but would also work as individuals to advance our aims."

CHRISTIANS BRAINWASHED

This Budget Report is indexed as to subjects dealt with and lists the enormous amounts spent on each project where Christians are brainwashed.

Some of the divisions are **FACTFINDING, LEGAL, PUBLIC INFORMATION, EDUCATION, PRODUCTION, RADIO & TELEVISION, FILM, MAGAZINE & PRESS, LABOR, INTER-RELIGIOUS, VETERANS, YOUTH INTERGROUP EDUCATION, SCIENTIFIC, COMMUNITY SERVICE, FOREIGN AFFAIRS, JEWISH INFORMATION, JEWISH COMMUNITY RELATIONS, AMERICAN JEWISH COMMITTEE INTERPRETATION, EDUCATION IN AMERICAN JEWISH ATTITUDES, WASHINGTON OFFICE SERVICE OPERATIONS & UNMET NEEDS.**

These people spend millions to direct every phase of Christian lives. **WHY?**

Who Hates Who?

Compare the world-wide excitement by Jews over the painting of synagogue doors in 34 countries with the interest shown by non-Jews when millions of Christians were being slaughtered by Jewish Communists. How much newspaper space was devoted to condemning the extermination of Christians? Since 1917, when the Jews from the East Side of New York set up communism in Russia, between 50 and 75 million Christians were slaughtered in communist controlled countries. While these Christians were being killed in the process of enslavement of their countries by communists, the U. S. Government did not protest. 30,000 Ukrainian U. S. citizens signed a petition to **President Roosevelt**, asking that he protest the slaughter in Ukraina, but when communist Jews swarmed into Germany from the Soviet Union to take over from the inside, just as the European Jews are swarming into the U. S. now, and camps were set up to keep them under surveillance, Zionists in the U. S. set up a scream of persecution. No one had accused Germany of killing even one Jew, but the Jews in the U. S. used F. D. R., who had opened the gates of Washington to the Marxists, to bring war on the German people. West Germany is now forced to bleed their citizens to give hundreds of millions to Israel, which did not even exist in the war days. Cold war by the Jews against Germans is carried on now, 16 years after the war. Every week the controlled TV and Radio feature several "Hate German and Love the Jew" programs. Warner Brothers, the Russian Jews, are bringing out their old anti-German films, round table discussions, speeches, etc. against "anti-semitism," but not against communism, which is taking the world. Today many publications in New York are flaming with exciting articles about synagogues.

The **New York Journal American**, January 15th, carries a picture of three boys, caption underneath states: "3 youths accused of anti-semitism." Have we arrived at a time when anti-semitism is classed as a crime? These boys had only known each other two days. No one accuses them of harming anyone or painting any synagogues. The New York City Magistrate **Milton Solomon** (X)

ordered treason charges punishable by death against three young men who formed a Nazi-type organization and "planned to beat up some Jews."

He stated it is treason when one plots against the society and the government in which he lives. Jews are now the society and the government.

The New York Times, January 16th, stated the United Nations has proposed that member governments take strong measures to curb anti-semitism. The U.N. was not concerned about communism in Hungary, but anti-Jewish sentiment is different!

Gullible Christians are being forced to express their horror at this rash of anti-Jewish expression, but few take the time to learn the basis for universal dislike for these people. How many have consulted the 36 volumes of the Talmud that Rabbis boast they teach? There is no set of books in existence which compares with the Talmud for its sickening filth and anti-Christian teachings. Samples: Relations between animals and women; they boast they gave Christ five deaths, too horrible to print here; Christians are like cattle to be used by the Jews. No Rabbi dare deny this. We have the Talmud in English.

This excitement is being used to prepare the United States to pass a law similar to the ones in communist countries where it is a crime to criticize Jews.

Say anything you want about a German, Englishman, Irishman, Frenchman, Pole, etc. Protestant or Catholic and nothing is said, but say something about a Jew and you are attacked as an anti-Semite, hatemonger, bigot, etc.

MARXISM MARCHES ON

We have never advocated violence. We have never cooperated with, or encouraged those who do. Ours has been the Christian approach: PEACE ON EARTH TO MEN OF GOOD WILL. We believe in PRAYER, but as Our Divine Lord said: "NOT EVERYONE WHO SAYS TO ME, LORD, LORD, SHALL ENTER THE KINGDOM OF HEAVEN."

We believe in prayer, but we know that we must hate the devil and all his works, and repudiate the synagogue of Satan. The PEN is mightier than the SWORD and that has always been the method of COMMON SENSE. Common Sense has always been operated in the SPIRIT OF ST. IGNATIUS, who said: "PRAY AS IF EVERYTHING DEPENDED UPON GOD; WORK AS IF EVERYTHING DEPENDED UPON YOU."

Patriots Take Notice!

Under the headline "1776" Best Seller" the Philadelphia Evening Bulletin of May 4th says, "The best selling book in 1776 was 'Common Sense.'"

A best seller today among loyal and intelligent Americans is "Common Sense." It alerts readers to the conspiracy of destruction. Help your country by widening its vital message to the uninformed. Don't "toss" your copy after reading — pass it along. Subscribe for your friends. Anyone can afford it. Keep it in circulation. Spread the vital "hush-hush" truths concealed by the controlled press. Rise and spread the alarm!

- U. S. URANIUM CONTROL -

—o— Continued from page 1 —o—

Anderson had to say:

"In the year 1956, a very young newspaperman in Denver came to me with a suggestion that the Joint Committee on Atomic Energy should make a study of the method by which one banking firm in New York and its affiliates had woven a complete web in the control of uranium."

And there in one sentence is the opening salvo in an attack almost without precedent in recent years on the floor of the once mighty United States Senate.

Anderson continued: "He said he had made the suggestion to the Department of Justice . . . But no particular investigation ever was undertaken there."

"I have some notes which that newsman sent me under date of September 17, 1956. He said to look at the cast of characters and their known connections. He started with Kuhn, Loeb and Company. He mentioned the fact that Lewis L. Strauss, the Chairman of the AEC, was associated with Kuhn, Loeb and Company from 1919 to 1947 . . . The newspaperman pointed out to me that Benjamin J. Buttenweiser, a limited Kuhn, Loeb and Company partner, was out of the firm 2 years . . . while he was serving as Assistant U. S. High Commissioner for Germany, but that when he quit the post, he was promptly taken back into the firm. That fact was mentioned by that person, and by others who had been talking to the Department of Justice, as evidence that these individuals do not separate themselves from their responsibilities, but return to them and retain their rights." What Anderson is here saying of course is that he and others believe that Strauss, as Chairman of the AEC, was not serving the Government and the people of America but rather the Jewish firm with which he had been associated for 28 years.

Anderson went on: "In addition to Mr. Strauss, there was Percy M. Stewart, a general partner in Kuhn, Loeb and Company, who is a director of Uranium Reduction Company, one of the dozen or so private firms milling uranium . . . always back into Kuhn, Loeb and Company there comes a director who is tied into these organizations." Uranium Reduction Company, operates an eight and a quarter million uranium processing mill at Moab, Utah, with a daily milling capacity of 1500 tons of ore a day, making it one of the 7 "giants" among the 23 mills in operation in this country. (G) All purchasing of uranium by the AEC is done through the mills. The shippers have to depend on these mills as an outlet for their ores (H), and since there were 727 mine operators in 1957 (a decrease from the peak of 843 in 1956) depending on these mills, it can easily be seen what degree of control over the industry is involved. (And only 6 of the 727 produced over 100,000 tons annually in 1956!) (G).

Anderson quoted his source further: "Sir William G. E. Wiseman was a partner of Kuhn, Loeb and Company in 1956. He was a partner of the Transoceanic Development Corporation, Ltd., formed in September 1955, by Kuhn, Loeb and Company, S. G. Warburg and Company of London, headed by Frederick M. Warburg, another Kuhn, Loeb and Company partner, and by the First Boston Corporation. The First Boston Corporation was the . . . institution which sent Mr. Wenzell to take charge of the first study of the Tennessee Valley Authority; and then he became the man whose conflict of interest caused the raising of questions when he was financial adviser to the Bureau of the Budget, and also was recognized as vice president of the First Boston Corporation."

Phillips Petroleum owns one of the "giant" mills, at Grants, New Mexico, a 9½ million operation with a 1725 ton capacity (G). Harry M. Addinsell, a partner in Kuhn,

Loeb's associate First Boston, is director of Phillips Petroleum. (E) William Wiseman of Kuhn, Loeb was adviser on American Affairs to the British Delegation to the 1919 Peace Conference and Lewis Strauss was a member of the American delegation. Wiseman was also chief of British intelligence during World War I and as such immensely valuable to Kuhn, Loeb. (I)

Senator Anderson said that his attention has been called many times to "a chart which that Denver financial reporter worked out, . . . in which he traced all the interlocking directorships between these uranium companies, all leading finally to concerns in Wall Street."

"Frederick M. Warburg, another general partner in Kuhn, Loeb and Company, is a grandson of Solomon Loeb, one of the original founders of Kuhn, Loeb and Company . . . lives in London." Anderson quoted from the New Yorker, June 11, 1955, pages 31-33, in a piece by Geoffrey T. Hellman, which stated: "Frederick M. Warburg's brother Paul Felix Warburg is an investor who makes his office with Carl M. Loeb, Rhoades and Company . . . They are the American Metal, Climax Molybdenum, Loeb's."

This shows another connection between Strauss, Kuhn Loeb, Carl M. Loeb and the uranium mills. For the 3 million dollar Climax Uranium Company's mill at Grand Junction, Colorado (site of the western AEC office), even though of small capacity, is 84 percent owned by Climax Molybdenum, which merged with American Metals to form American Metal Climax, Inc. (G) Carl M. Loeb, of Frankfort on Main, was sent to this country in 1892 with the American Metal Company of which he eventually became president. He also is a director of Climax Molybdenum, and incidentally is a member of Temple Emanuel of New York (C), whose Finance Committee has as its chairman Lewis Strauss. (B) Carl M. Loeb, Jr., has been associated with Climax Molybdenum from 1932 to date (a vice-president since 1937) and was also an officer of Anaconda (C), which has a 19-1/4 million dollar mill at Grants, New Mexico, with a 3,000 a day tonnage capacity. (G) Also of interest is the fact that the Lehman Corporation for many years has held in its portfolio of securities common stock of Climax Molybdenum in the amount of 10,000 shares worth (J) over \$450,000. Lehman Brothers or Corporation officers are members of the board of directors of Climax. It also has held as many as 13,000 shares of American Metal.

Senator Anderson ended his excursion into the never-never land of Jewish finance with the observation that "that reporter went on to trace associations . . . to the point where he realized that the entire American uranium business was directed in 1954, 1955, 1956 in such a way as to constitute a pattern which brought Kuhn, Loeb and Company and various of these other companies, . . . into these ventures." We will try to carry on where he of necessity left off. An interesting connection to this whole pattern, the meaning of which is not yet clear, is Secretary of the Treasury Robert B. Anderson's recent past presidency of Ventures Limited, a holding company which owns 34 percent of the stock of Frobisher, Ltd., Toronto, Canada, which in turn wholly owns Rare Metals Corporation, the owner of a 3½ million dollar mill at Tuba City, Arizona, with a 250 ton a day capacity. (G)

Lucky Mc Uranium Corporation, 60 percent-owned by Utah Construction Company, runs a 7 million dollar mill at Fremont County, Wyoming, with a capacity of 750 tons per day. (G) Green Mountain Uranium Corporation is closely associated with this operation, and in turn is controlled by Phelps-Dodge Corporation. (G) Lehman Corporation has underwritten security issues for this firm and has held as many as

—o— Please turn to page 4 —o—

- U. S. URANIUM CONTROL -

-o- Continued from page 3. -o-

25,000 shares of its common stock in its portfolio in recent years. (J) Kerr-McGee Oil Industries owns a 3 million dollar mill at Shiprock, New Mexico, with a 500 ton a day capacity; this firm also owns 56 percent of the 16 million dollar plant at Grants, New Mexico, owned by Kermac Nuclear Fuels, which has the top capacity, 3300 tons a day, of all the uranium processing mills. (G) Lehman Corporation's holdings in Kerr-McGee have reached 40,000 shares valued at 1-3/4 millions, and members of Lehman Brothers or the Corporation have been directors of Kerr-McGee for years. (J) Union Carbide and Carbon Corporation owns three uranium mills: Union Carbide Nuclear's 5 million dollar, 1100 ton capacity, mill at Uravan, Colorado; the same company's 8 1/2 million dollar, 1000 ton capacity, mill at Rifle, Colorado; and Trace Elements Corporation's 2-1/4 million dollar, 300 ton capacity, mill at Maybell, Colorado. (G) Lehman Corporation started underwriting and holding shares in Union Carbide in 1954. (J)

In 1947 more than 90 percent of our uranium was bought from the Belgian Congo. However—and this is not too widely realized by the public—this is no longer true. In 1959 proven ore reserves in the United States are estimated to be in excess of 70 million tons, averaging about 5 lbs. of uranium oxide per ton. (G) In 1953 there were only 5 million tons reserve known. Domestic production is now more than 15,000 tons a year. (G). South Africa uranium deposits from gold tailings only average about 1/2 a pound of U-308 per ton. Canada's production is about 15,000 a year, but at only 2 pounds per ton. Portugal's supply and average is quite low also. Australia, France, and Russia keep their own supplies. (G) From these figures it is obvious that the richest supply, and the best in terms of availability and reserve potential, is that which is right here in our own country.

So what happened under Lewis Strauss as Chairman of the AEC when it became evident that the United States had reached a position where it had no need to depend on foreign sources any longer? His firm's international Jewish connections took precedence over any mere question of patriotism, duty, legality, or national security. Even though we now lead the world in uranium production (G), the free world ore reserves of 1 million tons of U-308 are evidently scheduled by their Jewish owners for sale to the American government, which means its citizens. In 1959 \$450,000,000 was spent by us on foreign uranium and \$280,000,000 for domestic uranium (oxide). These foreign contracts run until 1962 and options will run them on to 1966 or even later, while in the United States only the top six or seven millers have favored contracts from AEC.

On October 28, 1957, a spokesman for Strauss delivered a message to the uranium producers of America which constituted an act bordering on treason on the part of Strauss and his Kuhn. Loeb mentors with consequences beyond belief for the United States and all Christians and free peoples of the world. On that date the small operators were notified that the AEC would authorize no more mills to be built nor additional capacity allowed for the mills already in operation. This "was a serious shock to the uranium industry which, until then, had been expanding at a tremendous rate." (See G for all quotations to follow.) "There was a devastating effect [of this announcement] on the already precarious values of uranium securities . . . in the money markets of New York, Chicago and San Francisco . . . as well as Denver and Salt Lake City. Almost overnight 'uranium' became a dirty word . . . the stocks decreased two-thirds [in 4 months] . . . no

banker . . . will loan a nickel on proven uranium resources [February 1958]." The AEC (Strauss) gave as a reason for the curtailment of domestic milling that there was too much uranium. "It is felt . . . that the AEC has grossly overestimated known ore resources."

Since the AEC's sudden policy switch called for only enough ore production to last 10 years "this would be actually a Government granted monopoly to the companies [with] permits, since they would be the only ones through market control, who could afford to extend reserves for their own mills." The February 1958 issue of *Uranium* had this editorial comment on the AEC policy switch: "Some uranium producers have it good. They have contracts . . . they couldn't be happier. Then there are large numbers of producers . . . who are bitterly unhappy . . . They complain that the market for their ore suddenly has disappeared."

Also it must be noted that the AEC discriminated against small domestic producers of uranium. It in another way "made contracts for Canadian concentrates in 1955 representing approximately 43,000 tons of mine ore per day at a price ranging from \$1.50 to \$3.50 more per pound than is being paid for domestic concentrates." What was the result of all these pressures? One of the smaller mine owners summed it up thusly: "We were forced from lack of financing to quitclaim or farm out to large, well-financed companies practically all of our original discoveries."

It should be clear from the foregoing quotations what Lewis Strauss meant to do and almost accomplished. By stopping further uranium exploration and production, he threw millions of dollars of uranium property at bargain prices into the hands and control of the "giant" millers, who in turn are all controlled by Kuhn Loeb-Lehman Brothers (operating through its Corporation) complex. This centralized control of uranium which means atomic energy, which means war power, which means world control in the hands of a small group of international Jews was accomplished by one of their own men, Lewis Strauss. Is there anyone so naive as to consider this anything other than an act of super treason? Senator Anderson and others fought the ruling after it was made and forced the AEC to ease the ruling to a certain extent, otherwise the power grab would have been accomplished without a hitch. Then Strauss was dropped from the AEC and afterwards from the Department of Commerce post he thought he had in the bag. But the first step in the plot—for that was what it was—had been taken, and it is inevitable that all the American uranium supplies will be eventually controlled by the Kuhn, Loeb cabal, by one means or another. What they want they will get—control of the world's richest and biggest supply of uranium.

- T. V. TRAP EXPOSED -

-o- Continued from page 1 -o-

ever, before they arrived it was learned that Peters had spent a day in the Anti-Defamation League office in Chicago. The Anti-Defamation League being the Jewish F.B.I., Mr. Mann wanted nothing to do with them. When Mann refused to cooperate the CBS men entered the place of business where Mann was employed as assistant manager, taking pictures and creating such a rumpus that they were ejected by the manager and later Mr. Mann was discharged. Peters and Weston had agreed to give Mr. Mann \$950.00 to allow the interview. Mann has a contract signed by Irving Gitlin, head of Public Relations for CBS in New York.

We have since learned this is the same William Peters who wrote the smear article in the April, 1959 Jewish-owned CORONET magazine entitled, "How to Fight Hate Merchants." This is covered in our issue No. 319 — "A Judge Answers Coronet."

The Anti-Defamation League uses gullible Christians, publications and Jewish-owned concerns like CBS to destroy patriots who expose the Marxist plot. We also learned the A.D.L. had cooperated with Bill Peters in publishing a book.

SECOND TRAP ATTEMPT

When it developed that we were not going to be trapped by the A.D.L. smear artists and CBS, the A.D.L. offices in Los Angeles got busy. On January 13th, a telegram was received by COMMON SENSE, requesting me to appear on TV in Hollywood, the telegram being signed Dan Fowler. During two phone conversations with Mr. Fowler, alluring promises were made, but upon investigation it was learned Mr. Fowler was only the bird dog for the Jew smear artist, Paul Coates, who would conduct a vicious question program in Hollywood and we would not be allowed to speak uninterrupted, as was promised.

Such is the way the Zionist Jews meet the facts published in exposing their activity. Down through the years, all efforts to get the Jews to face up to the charges against them failed. Of the thousands of factual charges made, they have failed to try to discredit one. Common Sense has offered them ample space in our paper to prove to our readers that we print lies. They go ahead spending approximately 20 million a year in TV, Radio, Newspapers and Magazines, calling patriots Bigots, Nazis, hate merchants, anti-semites, anything to prevent the public from learning the truth.

This is the only group that has to spend millions to endure tolerance of them? Their opponents are always wrong, but they dare not meet them and the Jews never admit that their actions have warranted animosity of Christians. They refuse to reform the slightest. Mark Twain said: "If you cannot answer a man's argument you can always call him names."

AGAIN WE MAKE THIS CHALLENGE WHICH WILL BE REPEATED FROM TIME TO TIME.

WE CHALLENGE

- the Anti-Defamation League
- the American Jewish Congress
- the American Jewish Committee

to furnish four of their top men to meet two of us, in public debate, on THREE charges.

1. We will affirm that the New York Jews financed the communist revolution in Russia in 1917; that Jews set up communism there and spread it throughout the world.
2. We will affirm that 95% of the atomic spies in the United States were Jews.
3. We will affirm that the Jewish Holy Books, The TALMUD (now 36 volumes), teaches hatred of all Christians.

If we fail, we will give COMMON SENSE to the Jews and quit. There are at least 1000 other charges we will affirm as time permits, if our challenge is accepted, but it will never be. THEY DO NOT DARE.
